Naloxone Administration in Ohio

EMS Incident Reporting System (EMSIRS) - 2011

Legend

ADAMHS Board

Rate per 10,000

- 0.0 - 3.9
- 4.0 - 9.5
- 9.6 - 21.6

Map Information:

This map represents naloxone administration rates in 2011. On average, there were 7.56 naloxone administrations per 10,000 persons during this time. Counties with the highest administration rates were Montgomery (21.6), Coshocton (21.4) and Clark (19.2). Counties with the lowest administration rates were Pike (0.3), Wyandot (0.4) and Guernsey (0.5). Counties with naloxone administration rates of 0.0 may be accurate; however, the rates could be inaccurate if the counties did not submit data during 2011. Rates in some counties may be slightly higher than what is presented because precincts may have missing data.

Note: Alcohol, Drug Addiction and Mental Health Services (ADAMHS) Boards have black borders, and counties have white borders. Borders are black in cases where ADAMHS boards and counties have the same borders.
