Subject: Behavioral Health Provider Integration

Release Date: June 1, 2012

## MITS PROVIDER TESTING OF EDI FILES

Over 200 behavioral health providers have applied to become trading partners for the electronic submission of claim files to MITS. Because of this large volume and the need to expedite trading partner testing and certification, ODJFS staff are simultaneously testing the new MITS behavioral health software and trading partner certification. Consequently, trading partner applicants may experience errors due to problems with their EDI files or problems due to software defects that are being found and corrected in the test environment. Both types of testing are critical to the success of MITS implementation. While this may affect some of your testing results, we are working every day to fix problems as they come to our attention.

**If you experience problems in testing your EDI files, please contact [MITS\\_CGTESTING@jfs.ohio.gov](mailto:MITS_CGTESTING@jfs.ohio.gov) and someone from the MITS testing team will assist you. In your e-mail please include your trading partner ID, a description of the issues you are experiencing, and most importantly a contact name and telephone number for your agency.**

In order to meet the July 1 deadline we encourage providers to begin testing immediately if you haven't already. Please contact the following mailbox to begin testing your EDI files: [MITS\\_CGTESTING@jfs.ohio.gov](mailto:MITS_CGTESTING@jfs.ohio.gov). Your agency will be assigned a member of the testing team as your main point of contact. Please DO contact the MITS tester to whom your agency has been assigned or contact the [MITS\\_CGTESTING@jfs.ohio.gov](mailto:MITS_CGTESTING@jfs.ohio.gov) mailbox.

### Here are some tips to prevent errors in testing EDI files

- **Do not send claims for services that require prior authorization (PA).** These claims will deny and will slow your testing process and certification efforts.
- In your EDI test files, **use dates of service later than January 3, 2012.**
- In your EDI test files, **make sure the recipients of your eservice claims were Medicaid eligible for the period December 1, 2011- February 28, 2012.**
- In your EDI test files, **use the NPI that your agency has been assigned in MITS for your mental health (Provider Type 84) or your alcohol and other drug (Provider Type 95) claims.** DO NOT use an NPI associated with a different Medicaid provider type or an NPI that has been inactivated in MITS.
- **EDI files may include both MH and AoD claims but they must be separated with the NPI associated with that provider type.** Providers of both AoD and MH services have one NPI and one Medicaid provider number for each of these provider and service types.
- EDI test files may include claims for injectable psychiatric pharmaceuticals, such as Risperdal, using the appropriate J-Code and the NPI associated with Provider Type 84. These claims will only be paid if the provider has the specialty of "841" assigned to your mental health provider NPI and Medicaid number.

Please see the chart on the next page for examples of the ODJFS provider number taxonomy for ODMH and ODADAS services and provider types.

**Some agencies have still not responded to inquiries from ODADAS and ODMH staff concerning your agency's NPI numbers. If we do not obtain NPIs from your agency, you will not be able to bill MITS for services provided on or after July 1 2012.**

**In order to help expedite this process, please contact:**

**ODADAS: Ms. Monica Burke at 614-752-8360 or [Monica.Burke@ada.ohio.gov](mailto:Monica.Burke@ada.ohio.gov)**

**ODMH: Ms. Theresa Rohrbaugh at 614-644-1513 or [Theresa.Rohrbaugh@mh.ohio.gov](mailto:Theresa.Rohrbaugh@mh.ohio.gov)**

**Before calling or e-mailing have the following information on hand: your federal tax ID (FTID), Medicaid assigned ODJFS provider number(s), and NPI(s). This will help speed up the review.**

<b>Example Provider Number Taxonomy for a Provider of Medicaid AoD and MH Services</b>				
ODJFS Provider Type	ODJFS Provider Specialty	ODJFS Provider Number	NPI	AoD or MH Service(s) or Medication
84	840	1234567	1010102020	Behavioral Health Counseling and Therapy-Group Behavioral Health Counseling and Therapy-Individual Crisis Intervention Behavioral Health Services Community Psychiatric Support Treatment-Group Community Psychiatric Support Treatment-Individual Mental Health Assessment-non-Physician Mental Health Assessment-Physician Partial Hospitalization Pharmacological Management
	841			Injectable psychiatric pharmaceuticals
95	950	0052987	9900557733	Ambulatory Detoxification Assessment Case Management Crisis Intervention Group Counseling Individual Counseling Intensive Outpatient Laboratory Urinalysis Medical/Somatic
	951			Methadone Administration
