

ODADAS has made changes to their AoD medical definitions in MACSIS to accommodate the new Medication Assisted Treatment (MAT) service and the "GT" modifier for interactive videoconferencing services. The updated AOD Procedure Code, Modifier, Medical Definitions matrix is attached as there are a number of new non-Medicaid medical definitions that Boards will need to make payment decisions about. The new medical definitions are found in the columns with the "GT" added as a valid modifier 2 and for all of the MAT CPT codes, starting on page 4. While there are a couple of new Medicaid medical definitions due to the "GT" modifier, these have already been added to the standard Medicaid benefit rules and no action is required by the Boards.

Due to the Mental Health Service Limits that will be implemented in the near future, we were required to add new MH medical definitions. Previously, procedure code 90801 (Psych Diag Int Exam - Phys) and H0031 (MH Assessment - Non-Phys) shared the same medical definitions. When the Mental Health Service Limits are implemented, these two procedures have separate limits (2 hours of Psych Diag Int Exam - Phys and 4 hours of MH Assessment - Non-Phys) which require distinct medical definitions. Procedure code 90801 will keep the same medical definitions as before; while H0031 has been assigned new medical definitions. The new medical definitions are highlighted in red on the attached spreadsheet. The new medical definitions will become effective on 7/1/2011 for claims with a date of service of 7/1/2011 or after.

The existing MACSIS Change Control Policy limits the adding/changing of benefit rules to January 1st and July 1st and requires a 30 day advance notice for implementation. Due to the addition of Medical definitions as a result of state level changes, Boards are being given a 30 day opportunity to inform the state of their local payment decisions and MACSIS implementation needs. Therefore, please communicate to the MACSIS help desk any MACSIS build changes that you would like implemented by August 19, 2011.

Thank you.
