Critical/Non-Critical Error Reports

Sent on: November 10, 2011

Background:

The requested change to add the Date of Service to all error codes on the Critical/Non-Critical Error Reports will be implemented into MHHIPAA on Monday, November 14, 2011. All error codes on the Critical/Non-Critical Error Reports, for claim files processed beginning November 14, 2011, will reflect a Date of Service. If a claim is submitted without a Date of Service, the error code will not reflect a Date of Service. If you have any questions, please contact the MACSIS Support Desk.
