

# MACSIS Communication

## FY10 ODMHD/ODADA Purge

### Sent on: February 3, 2012

---

#### Background:

Over President's weekend, February 17<sup>th</sup> – 20<sup>th</sup> 2012, ODMH and ODADAS will purge ODMHD and ODADA data files prior to June 30, 2011. This information is available in prior year's archived claim files. The last purge of these data files was 10 years ago, and combined there is a total of over 40 million records. This purge is necessary in order to speed up some of the processes we perform on a daily basis. Unfortunately, due to the number of records, we were unable to perform this purge during the standard archive in January.

Board access to MACSIS will close on Thursday February 16<sup>th</sup> at 11:59 PM. Access to the system will be restored upon successful completion of the archive process. We estimate that normal weekly processing will begin Monday February 20, 2012. A communication will be sent to all Boards upon successful completion of the archive process, and when Board access has been restored. We apologize in advance for any inconvenience this may cause. If you have any questions, please contact the MACSIS Support Desk.
